

## REGISTRATION PROCESS FOR THE TRAINING ON PRE-ANALYTICAL ISO STANDARDS 20184 | 20166 | 20186

### How to access the web conference series (two steps):

- 1) Registration at online Google document(s)
- 2) Registration at GoToWebinar (online conference software)

#### 1) Google document(s)

For the Google document(s) registration you need to have the ISO standards next to you, because you need to fill out - next to general information - a specific password query. This password is an explicit number/word that can be found in the text of the relevant ISO standards 20184:2018, 20166:2018, 20186:2019. This procedure is mandatory, because the standards are ISO licensed documents which cannot be shared publicly in web conferences (Copyright protected documents, all rights reserved by ISO). The password is your personal key for the registration to the web conference series. Please treat your access data as confidential and do not pass them on to third parties.

Please register either for single, multiple or all three ISO standards, depending on which sessions you want to participate in

- **Frozen tissue (FT) – 20184:2018:** Please follow this [link](#).
- **Formalin-fixed and paraffin-embedded tissue (FFPE) – 20166:2018:** Please follow this [link](#).
- **Venous whole blood (VWB) – 20186:2019:** Please follow this [link](#).
- **ALL SESSIONS (FT, FFPE, VWB): Frozen tissue – 20184:2018, Formalin-fixed and paraffin-embedded tissue – 20166:2018, and Venous whole blood – 20186:2019:** Please follow this [link](#).

#### 2) GoToWebinar

Once you have successfully registered you will get the links to the GoToWebinar registrations – but please have in mind that this can take up to 3 working days. Now you will be able to sign up for the respective webinars.

If you are unable to attend the webinar on a particular day or at a particular time, that is no problem at all, as you will be given access to the session recordings afterwards.

The participation in the web conference series is free for academia.

Please spread the invitation in your RIs, networks and social media channels and please use #SPIDIA4P @BBMRIERIC and #BBMRI\_QM

For further questions about this web conference series, please feel free to contact:
